

DESCRIPTION

READYMIX Crack-Free Multipurpose joint compound is a high-performance compound specifically formulated for filling and finishing plasterboard joints. READYMIX has superior working qualities, good open time and very easy to sand.

The Unique Crack Proof formulation ensures professional-quality drywall finishing. READYMIX Crack-Free Multipurpose joint compound is ideal for embedding tape and for filling and finishing coats in interior gypsum panel applications. It is also used for covering corner bead, fasteners and trim, for skim-coating entire gypsum panel surfaces, and for hand-applying simple textures.

PROPERTIES

READYMIX, in addition to its cost-saving benefits, is Factory Premixed, offering High Quality and consistency.

READYMIX is very easy to mix when additional water is necessary.

READYMIX is very easy to handle, and has an excellent adhesion that makes it good bonding even under humid conditions.

READYMIX has longer open time, facilitating working even under fast drying conditions.

GUIDANCE FOR USE

Surfaces should be dry, clean and weather protected.

Mix contents lightly without adding water. Use directly from container for covering fasteners and corner bead. For taping and finishing joints, thin as necessary. Add water in small quantities to avoid over thinning. Remix lightly and test-apply after each water addition.

Do not mix with other materials.

Allow each coat to dry before the next coat is applied.

Use wet sanding or wipe edges gently with a wet sponge to avoid creating dust. Wear protective clothing and masks and make sure the area is well ventilated.

STORAGE CONDITIONS

Protect container from freezing and extreme heat.

Do not stack above 2 pallets high.

Shelf Life up to 9 months under good storage conditions. Rotate stocks on First-in, First-out basis.
